SECRET,

25X1A - 3 -6. Prior to 7 September, the Flak Kaserne was occupied by an estimated 1,500 troops wearing red-bordered black epaulets. On 29 August, 15 groups seach of 12 soldiers, received individual training in the barracks yard. On 2 September, 25 soldiers received instruction on 6 x 35-mm AA guns in the barracks yard. Five armored personnel carriers, each occupied by 10 soldiers wearing red-bordered black epaulets, and an undetermined number of heavy machine guns left the installation toward Woltersdorf; as well as 2 T-43 tanks and 1 SP gun, each occupied by 6 EM and 1 officer; while 4 T-43 tanks, each occupied by 6 soldiers, went toward Temphel . Six groups, each of 12 soldiers, practiced aiming at the obstacle course. On 7 September, five T-43 tanks were seen leaving the installation toward Teuchel . Twenty-five soldiers wearing red-bordered black epaulets received instruction on four 37-mm AA guns in the barracks yard. Work was being performed in the tank repair shops. Tanks from the Flak Kaserne, Beseler Kaserne and Tauentzien Kaserne conducted joint advanced combat firing practices at the Teuchel troop training grounds. About 120 troops wearing red-bordered black epaulets and carrying infantry weapons and light field pack participated in the exercise. At about 5 a.m. on 9 September, a train of 6 converted boxcars and 30 flatcars was unloaded at the Wittenberg railroad station. Four T-43 tanks were seen en route toward the Arado installation and about 50 soldiers wearing red-bordered black epaulets were seen near the train. At 6:15 a.m. on 14 September, 5 JS-2 tanks, 25X1C 5 boxcarloads of ammunition and equipment and 3 boxcarloads of troops wearing red-bordered black 25X1 epaulets with tank insignia were entrained at the Wittenberg railroad station. The train included 10 empty flatcars which, later, were presumably also loaded. Curfew for enlisted personnel in Wittenberg 25X1C was at 8 p.m., including Sundays. 25X1A 1. Comment. Major elements of the 6th Gds Tank Div are confirmed at the post ] until mid-September. Other elements of the division are 25X1 rather safely believed to be stationed at Werder-Markendorf. Numerous reports on transportation indicated that, since early July 1953, tank units were continually rotated between the training area and the post. During the preceding two years, the tank regiments of the division had stayed at Werder-Markendorf throughout the summer months. 25X1A of early August 1953. Corment.
